

DESCRIPTION

Chunk offers a bold yet refined presence, defined by its solid wood frame and generous proportions. The wide seat and backrest are softened by subtle curves, making it comfortable for extended use in both residential and commercial environments. Chunk’s silhouette balances strength with warmth, celebrating the tactile quality of timber and the enduring appeal of honest construction.

PRODUCTION PROCESS

The chair parts are made of solid wood pieces of the same length but different widths, with precisely crafted joints on CNC machines. Each piece is chosen through careful matching of wood colors and structures. The upholstered seats are covered with HR foam and upholstery for superior comfort. Certain chair collections are produced using a special wood bending technology. The technical parameters of hand-assembled chairs comply with standard requirements. Final sanding is done manually with fine-grained sandpaper, and various types of finishes enable a wide selection of the chair’s final appearance.

PRODUCT TYPE

Chair

USAGE

Indoor

DISMANTLING OPTION

No
