DESCRIPTION

A combination of beauty of the material, the wood basis and ceramic or leather superstructure, is bound in this collection by the common element: a calotte. A subtle association to the spherical form, to a segment of this perfect shape, is immersed in the warmth of wood, in a curved mould, like a negative embracing a body. The piece is completed by a flat surface with a contrasting tone and texture, ceramic or leather inserts, trimmed with wood, like an elegant cross-section, a calotte surface. The functional horizontal place remains visually accentuated by means of the material's aesthetic sensations, textures in seductive light and dark versions, accompanied by the imperative of the tactile, of touch.

PRODUCTION PROCESS

Tables are crafted from carefully selected, high-quality solid wood, chosen for its durability and distinctive natural grain. Each piece of wood is precisely cut and shaped to achieve clean lines and balanced proportions. Skilled artisans meticulously assemble the components using traditional joinery techniques, ensuring lasting strength and stability. Surfaces are finely sanded to enhance the wood's texture and prepare it for finishing. The final stage involves applying a chosen finish - whether natural oil, wax, or another treatment - to protect the wood and highlight its organic beauty. The result is a versatile, handcrafted table that seamlessly blends functionality with timeless design.
