

DESCRIPTION

The Lakri oval table combines a soft, oval tabletop with a striking, angular leg design. The legs bend sharply and meet in a dynamic shape that narrows toward the center and widens again toward the floor, providing both stability and open space. This sculptural base enhances the visual appeal while allowing room for movement around the table. The table can transform from circular to oval, offering flexibility in size and layout. Its elegant form makes it a perfect centerpiece for gatherings and conversations, adding both function and beauty to any space.

PRODUCTION PROCESS

Tables are crafted from carefully selected, high-quality solid wood, chosen for its durability and distinctive natural grain. Each piece of wood is precisely cut and shaped to achieve clean lines and balanced proportions. Skilled artisans meticulously assemble the components using traditional joinery techniques, ensuring lasting strength and stability. Surfaces are finely sanded to enhance the wood’s texture and prepare it for finishing. The final stage involves applying a chosen finish - whether natural oil, wax, or another treatment - to protect the wood and highlight its organic beauty. The result is a versatile, handcrafted table that seamlessly blends functionality with timeless design.
