

DESCRIPTION

The Mela bar chair features a fully upholstered seat and backrest supported by a solid wood frame. The soft, continuous form provides comfort and support, with careful attention to ergonomic proportion. Available in two seat heights - 65 cm and 79 cm, it can be suited for residential or commercial applications. Explore its versatility further with a choice of solid wood frames in a range of species, and upholstery options in leather or fabric, allowing you to curate the perfect seating solution for your space.

PRODUCTION PROCESS

The bar chair parts are made of solid wood pieces of the same length but different widths, with precisely crafted joints on CNC machines. Each piece is chosen through careful matching of wood colors and structures. The upholstered seats are covered with HR foam and upholstery for superior comfort. Certain chair collections are produced using a special wood bending technology. The technical parameters of hand-assembled chairs comply with standard requirements. Final sanding is done manually with fine-grained sandpaper, and various types of finishes enable a wide selection of the chair’s final appearance.

PRODUCT TYPE

Bar chair

USAGE

Indoor

DISMANTLING OPTION
