

DESCRIPTION

Tanka brings together minimalist lines and natural materiality in a balanced, functional form. The solid wood frame features a slightly reclined backrest and comfortable proportions, making it suited to both formal and casual dining settings. Tanka is designed to disappear into an interior while offering a quiet sense of craft and care. Explore its versatility further with a choice of solid wood frames in a range of species, and upholstery options in leather or fabric, allowing you to curate the perfect seating solution for your space.

PRODUCTION PROCESS

The chair parts are made of solid wood pieces of the same length but different widths, with precisely crafted joints on CNC machines. Each piece is chosen through careful matching of wood colors and structures. The upholstered seats are covered with HR foam and upholstery for superior comfort. Certain chair collections are produced using a special wood bending technology. The technical parameters of hand-assembled chairs comply with standard requirements. Final sanding is done manually with fine-grained sandpaper, and various types of finishes enable a wide selection of the chair's final appearance.

PRODUCT TYPE

Chair

USAGE

Indoor

DISMANTLING OPTION

No

GLIDERS

Standard gliders
