

DESCRIPTION

The Tesa rocking chair exemplifies the commitment to design excellence and innovation. Handcrafted with attention to detail, Tesa blends European design aesthetics with functionality, making it perfect for residential and commercial interior design projects. The upholstered seat enhances comfort, while its broad stance and softened angles give the piece quiet confidence. Explore its versatility with seat types including wooden grid, fabric or leather upholstery, stretched leather, and linen net, allowing you to curate the perfect seating solution for your space.

PRODUCTION PROCESS

The chair parts are made of solid wood pieces of the same length but different widths, with precisely crafted joints on CNC machines. Each piece is chosen through careful matching of wood colors and structures. The upholstered seats are covered with HR foam and upholstery for superior comfort. Certain chair collections are produced using a special wood bending technology. The technical parameters of hand-assembled chairs comply with standard requirements. Final sanding is done manually with fine-grained sandpaper, and various types of finishes enable a wide selection of the chair's final appearance.
