Aluminum frames

SECRET_The highest expression of essentiality.
SECRET flush invisible frame combines
Barausse know-how with stylistic research
for innovative solutions.

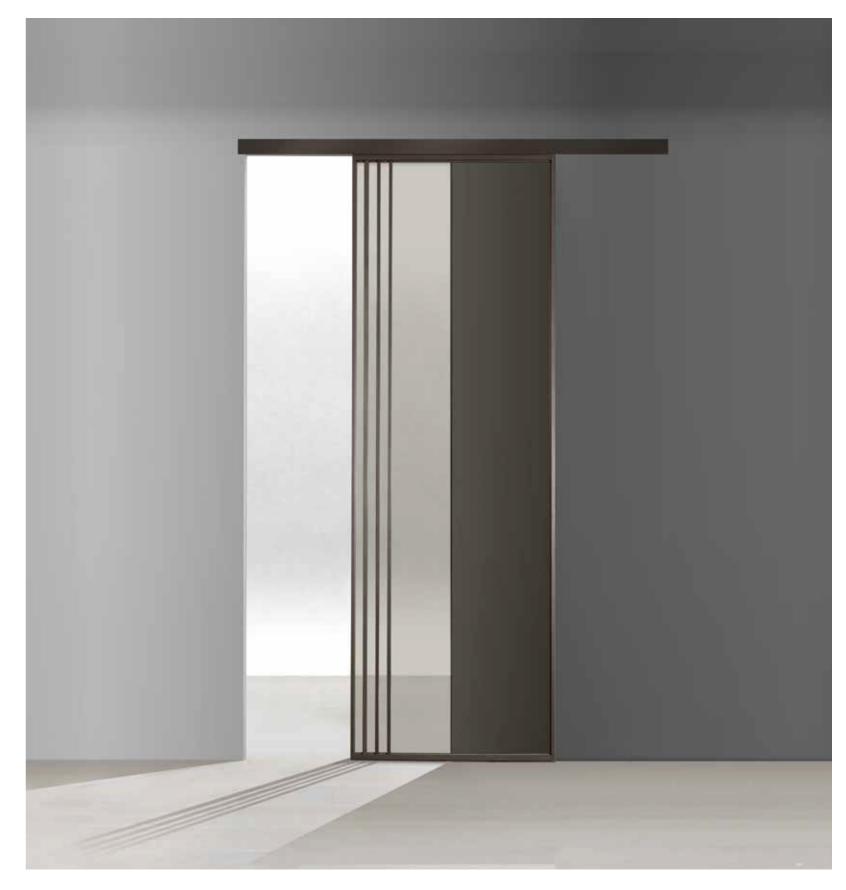

INNER X1_A variant of our flush frame characterized by a visible profile that embellishes the door, it is available in any METAL finishing.

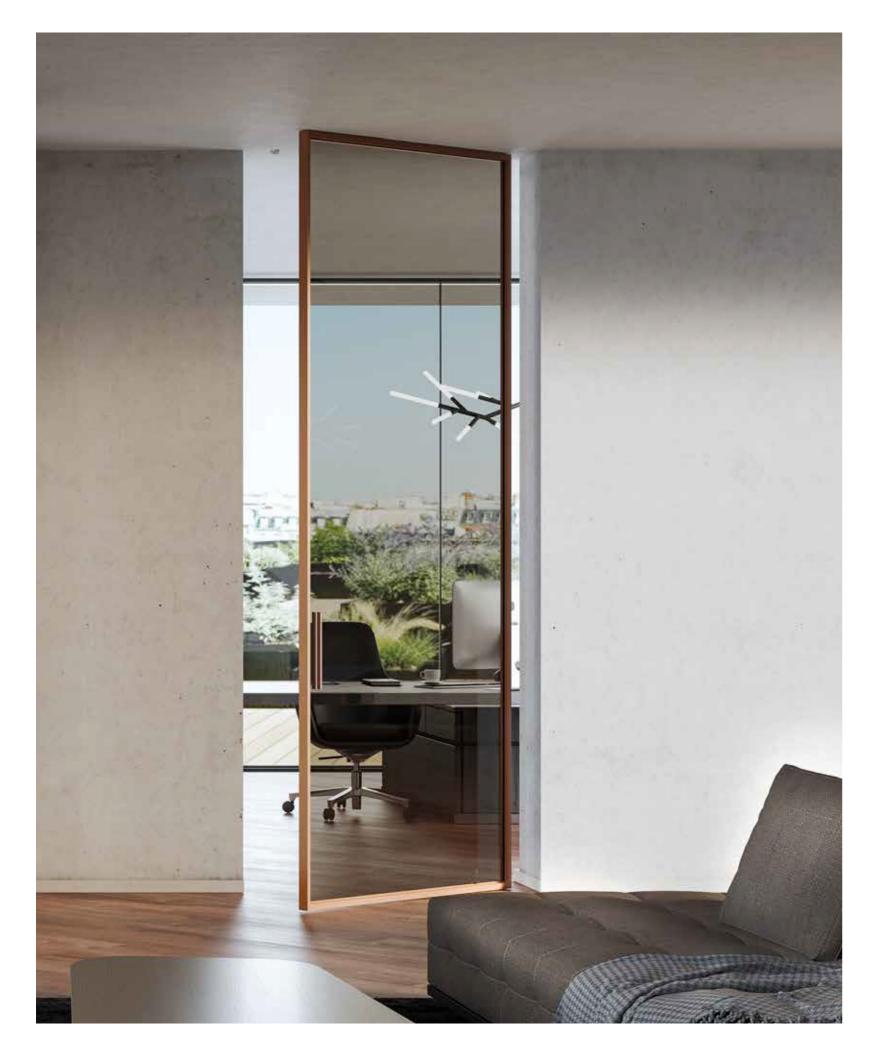

INNER2_This minimal frame does not require any mansory work for installation.
It is characterized by a joint cover on one side, and it is available in any METAL finishing.

CARBON TIP I30, SS FUMÈ, POCKET DOOR

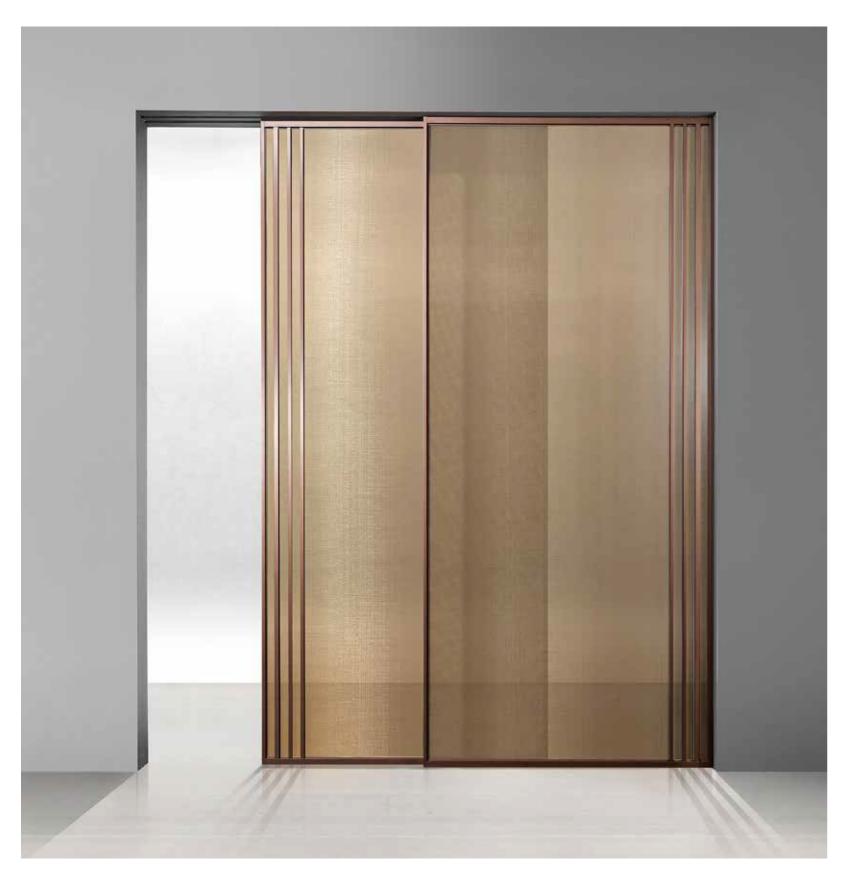

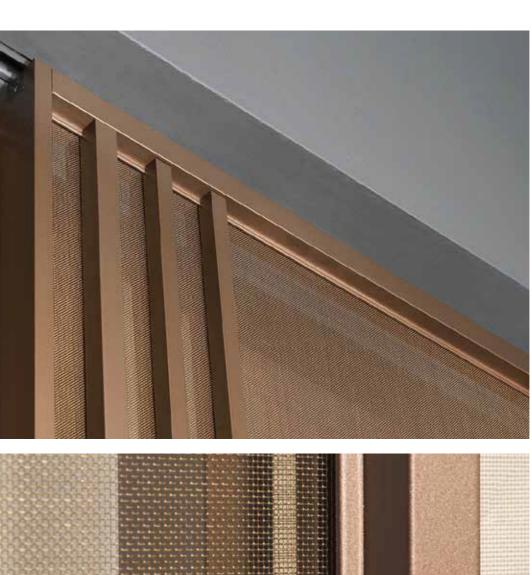

A type of hinged door of great value: TIP swing doors are the result of careful stylistic research aimed at obtaining a slender yet striking door. Perfectly integrable with the furniture, thanks to the variety of door models available, it both punctuates and amalgamates the internal distribution of space. Available both as a single and as a multiple door, it adds a scenic touch of to any room.

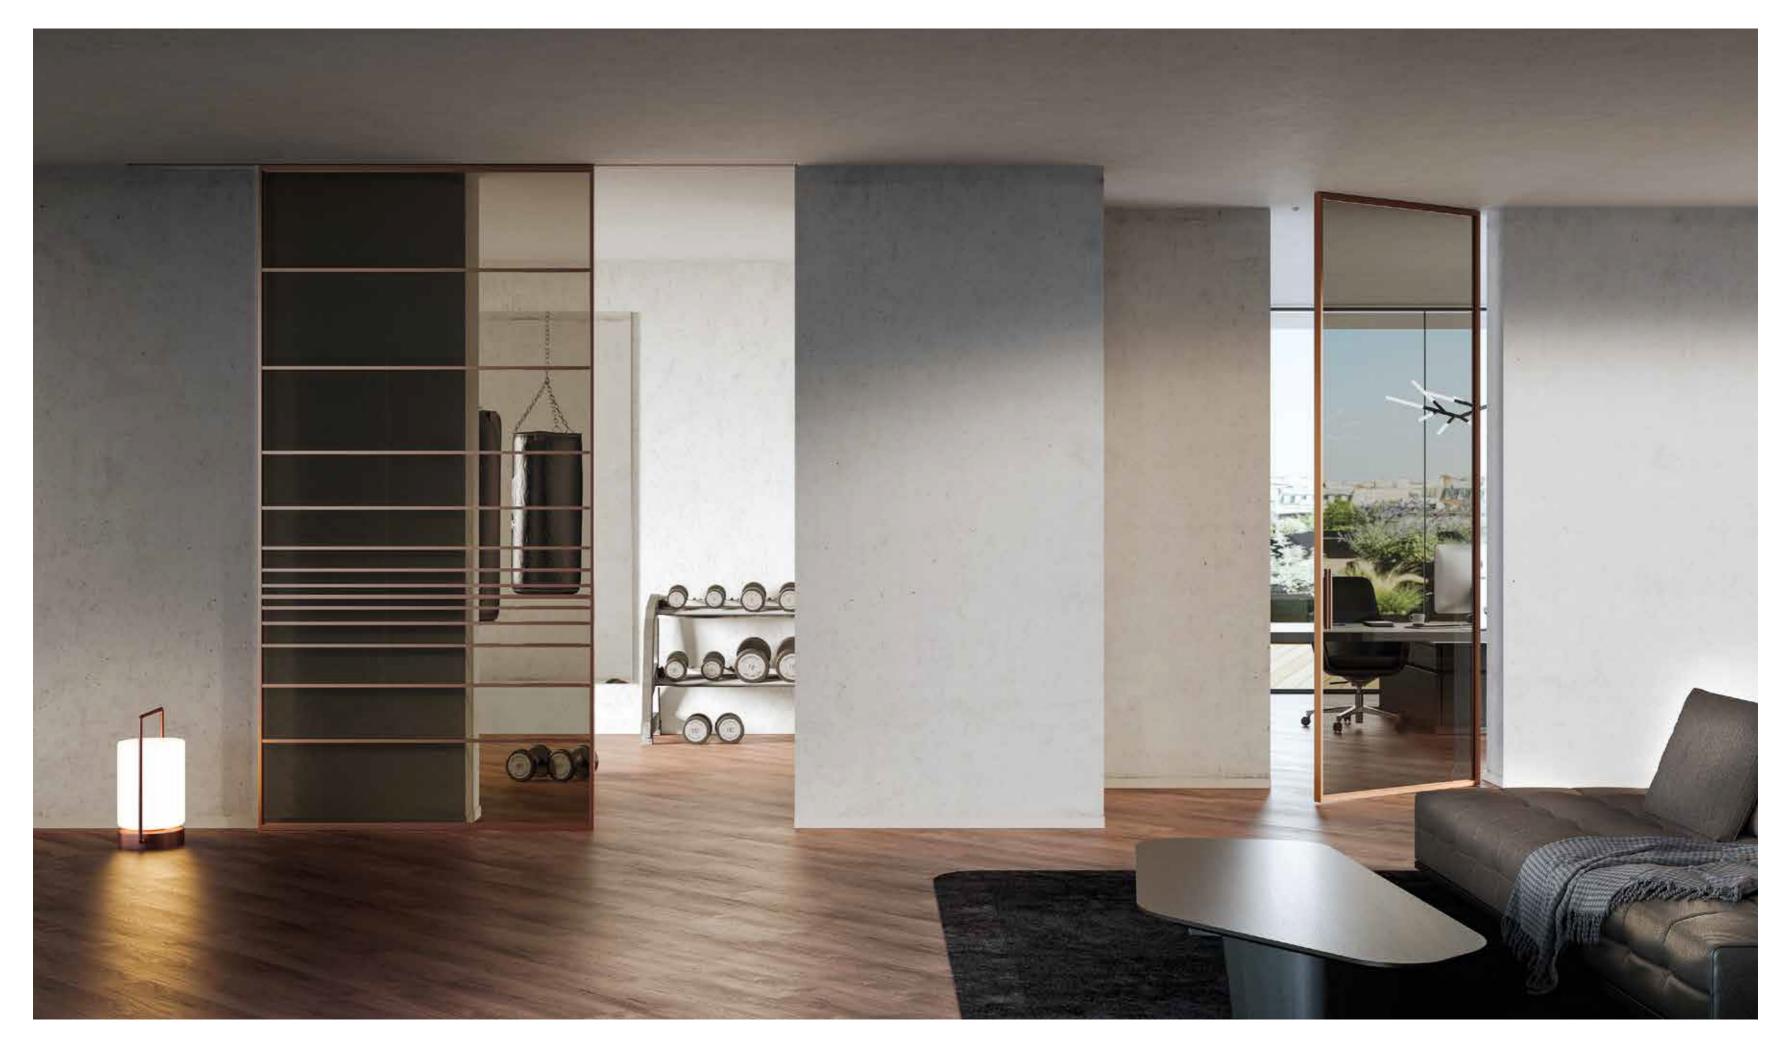

RAME TIP I30, MATER BRONZO M2

Mater Bronzo M2 Glass with bronzed metal mesh inside

The utmost minimalist expression of the Legnori glass and aluminium door. Large glass surfaces framed in a thin aluminium profile can be customized in different finishes to better adapt to any type of environment. TIP 60 is the most simple version of the door, obtained by combining the two materials.

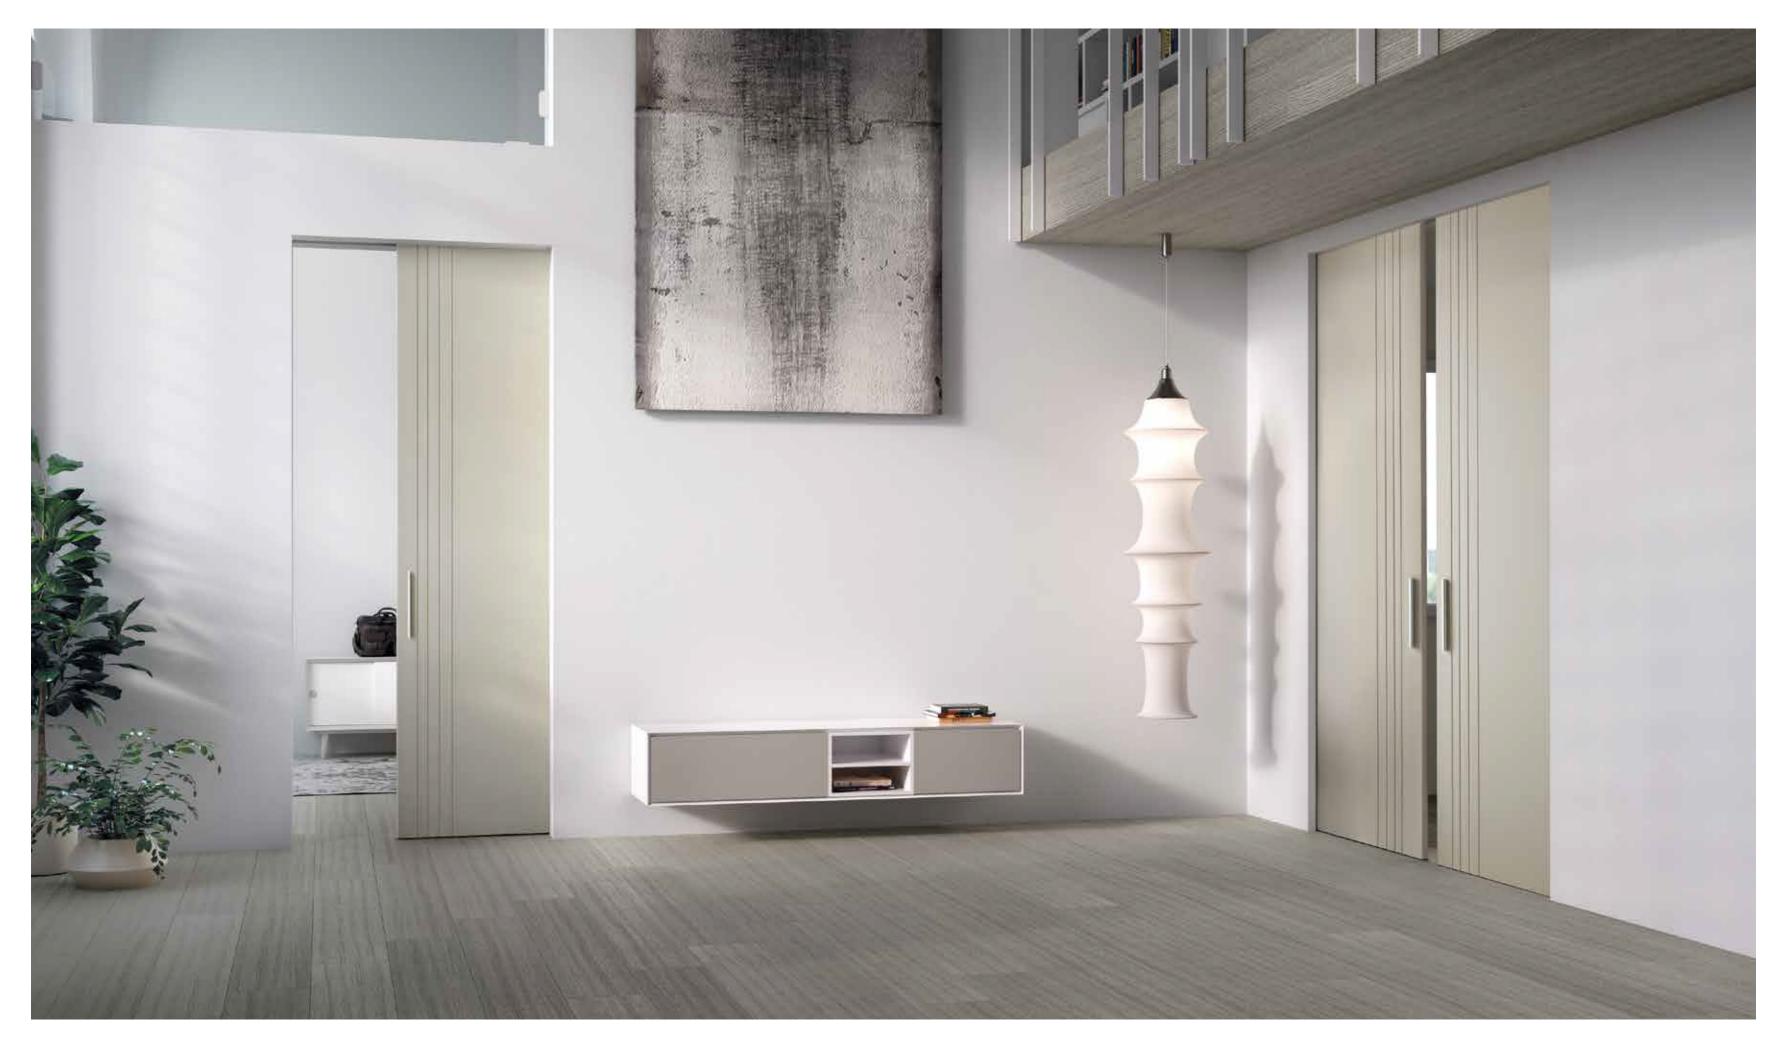

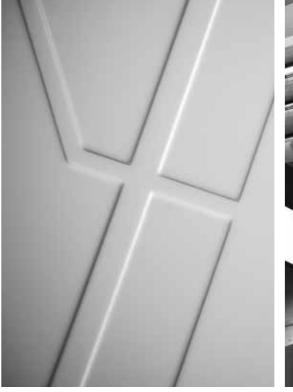

SECRET is the flush door collection that allows customization and guarantees modernity in every environment. Its innovative frame and the customizable leaf, available in unlimited finishes, shades and wood veneers, are specifically designed to adapt perfectly to all spaces. A door with minimal design available also in the sliding version, combined with the flush wall skirting board or in its fire-resistant and sound-insulating option.

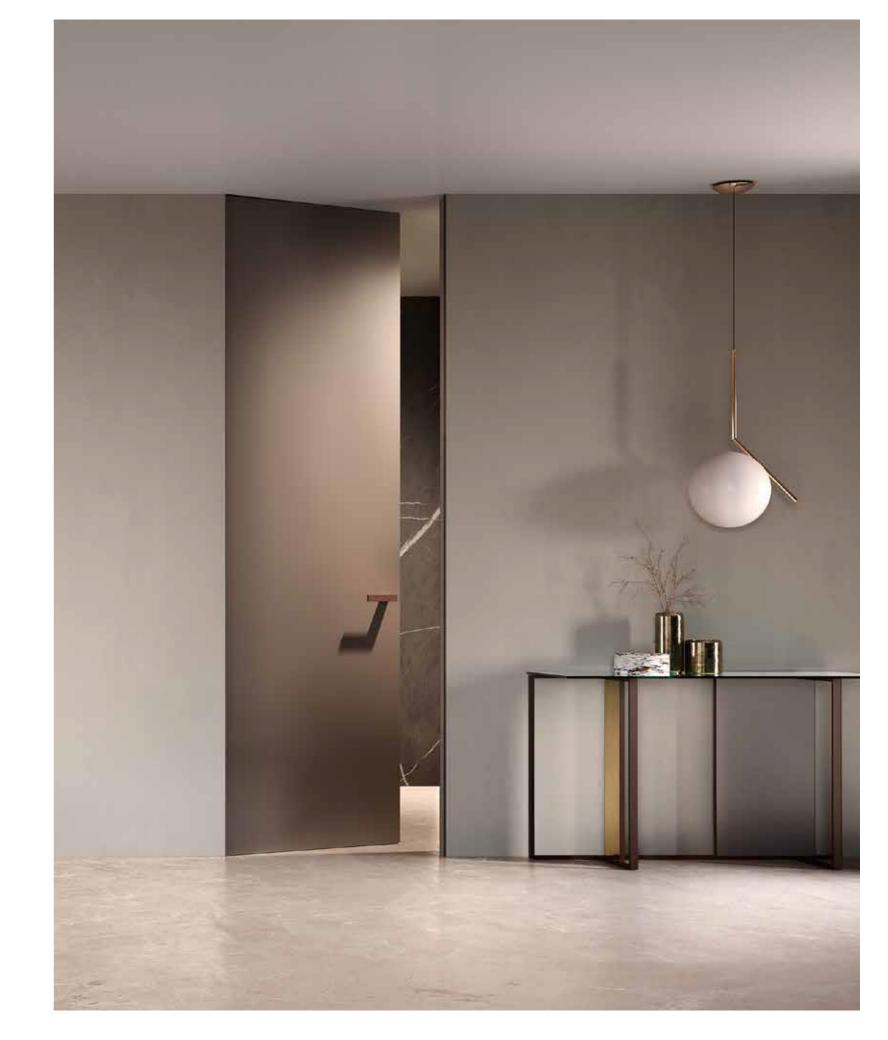

Articulate and evocative, with strong aesthetics design, pantographs gives personality to the architectures.

The innovative METAL lacquered finish gives these flat doors a unmistakeable surface texture with a unique, refined effect.

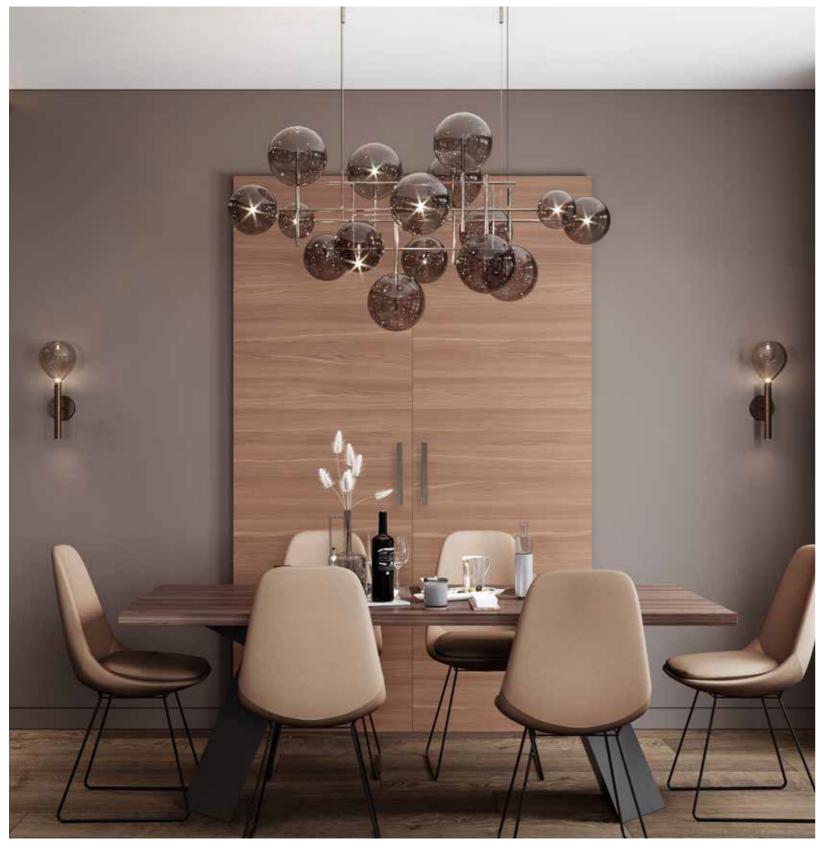

Carefully brushed and varnished veins to exalt every detail of the prestigious veneer.

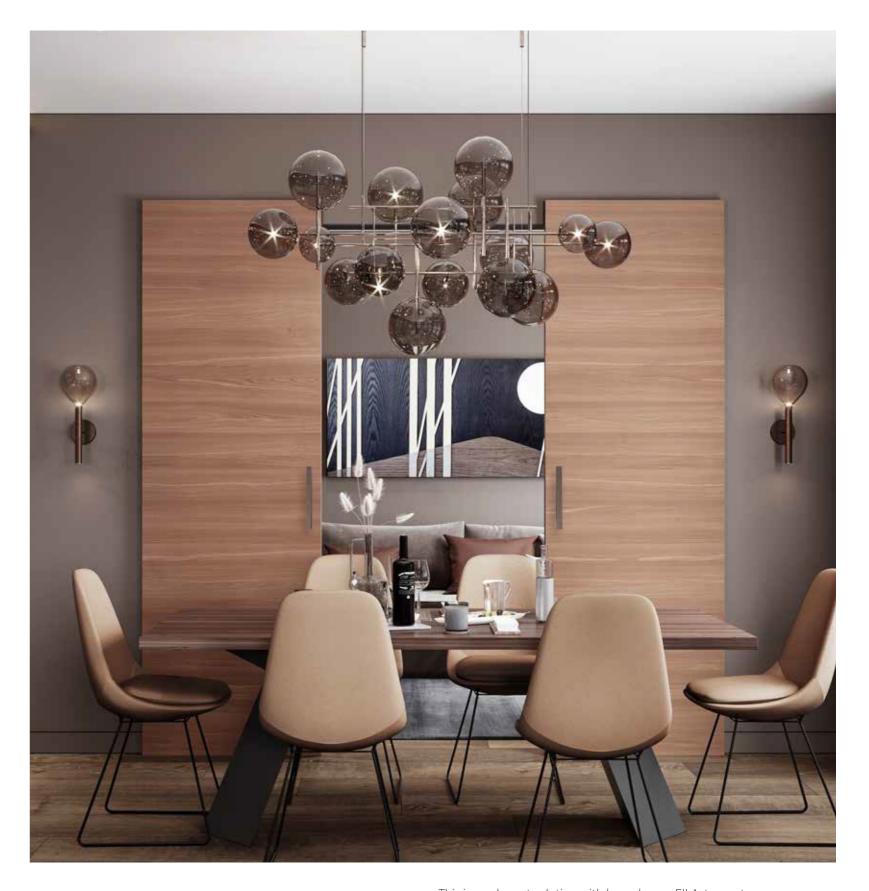

This is an elegant solution with barn doors – FILA, to create a connection between the dining and living rooms. It suggests an alternative to distributing the furnishings while joining and dividing spaces with a strikingly scenic effect.

Closing wide openings with a touch of style is easy.

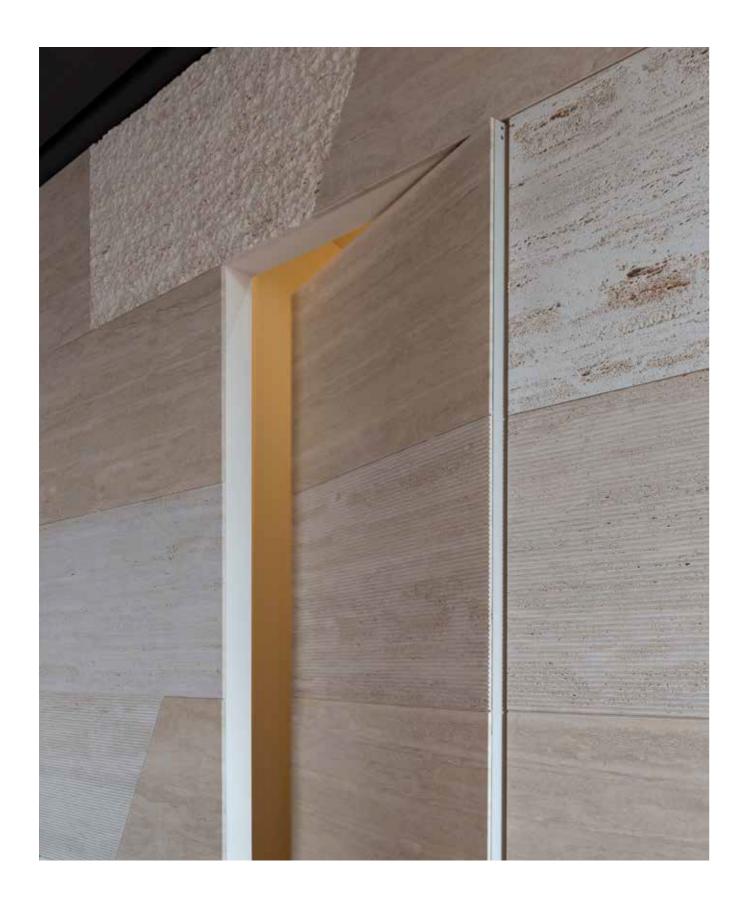

Barausse suggests using a combination of large pivoting doors to create modular openings with strong aesthetic impact.

Secret You

YOU is the right solution to make large doors that can hold decorations or customizable relief patterns. We have raised the perception of a functional object that hides and reveals simultaneously, and the design criteria was inspired by the principle of cohesiveness.

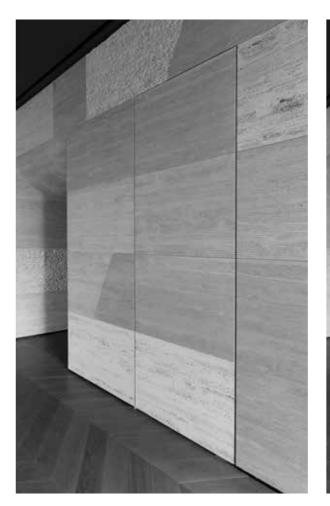

Pivot door decorated with Margraf marble

The SECRET YOU flush door is the invisible solution "par excellence".

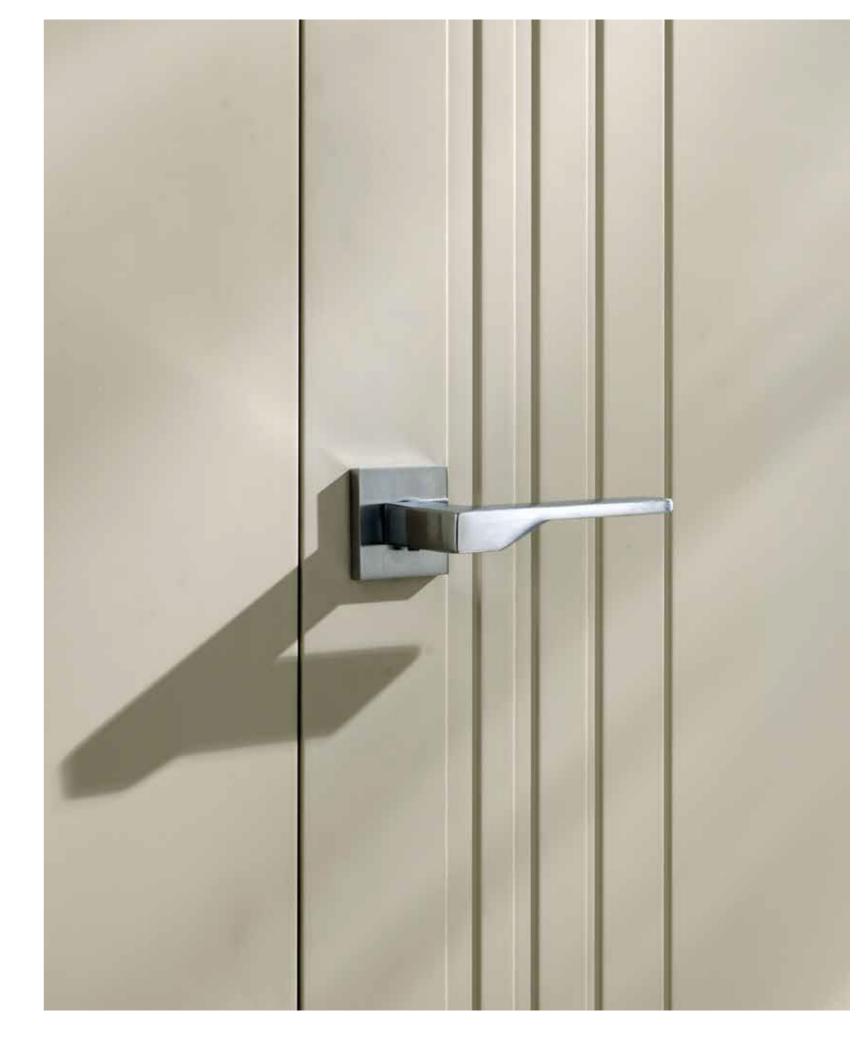

It integrates completely with the surrounding walls to conceal the passage.

Moderno collection

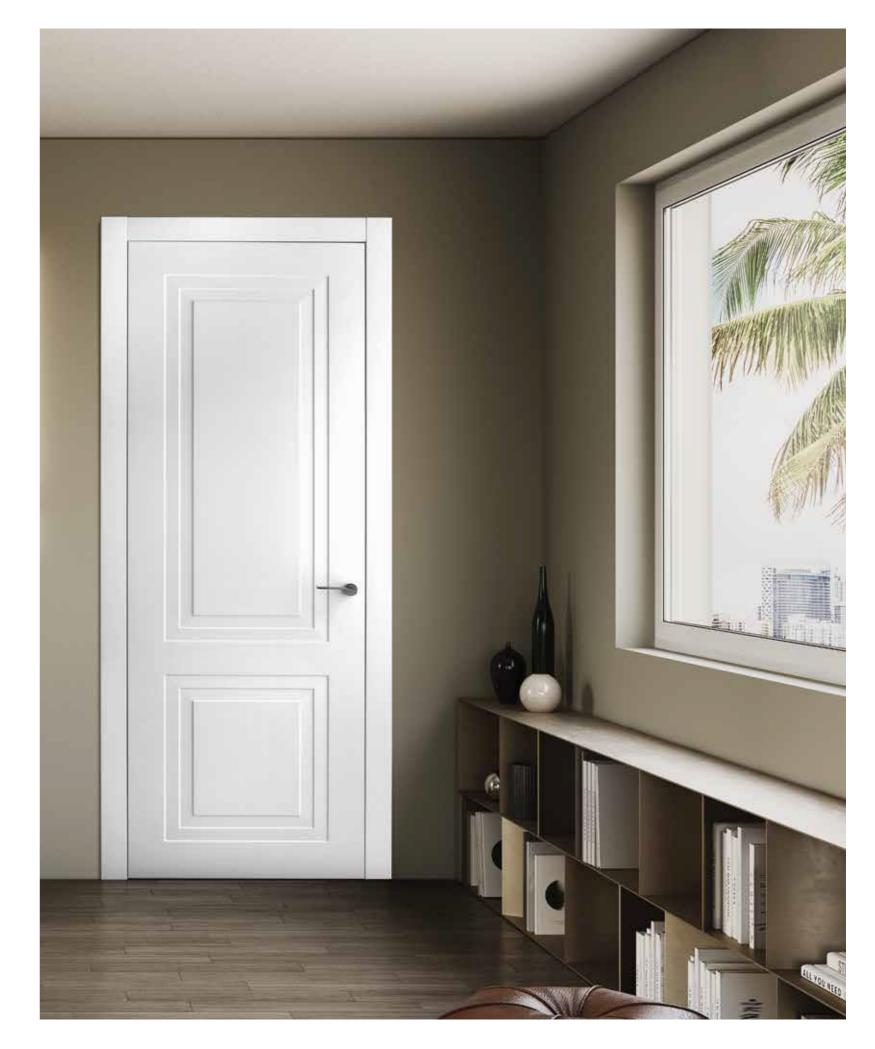

Carefully painted surfaces are obtained through a pain-staking process of spraying or curtain coating lacquer, depending on the finishes, to get the most out of each detail: the Color and Metal lacquered doors were designed to add value and elegance while brightening the room where they are installed.

The Coloniale models have a refined pantographic milled pattern that perfectly combines classic and modern styles.

The best invisible hinges on the market, adjustable on 3 axes. Avoids the risk that, with time, cracks appear on the wall: the positioning of the hinges allows to have a thicker wall finishing into the wall.

Satin Chrome (CS)

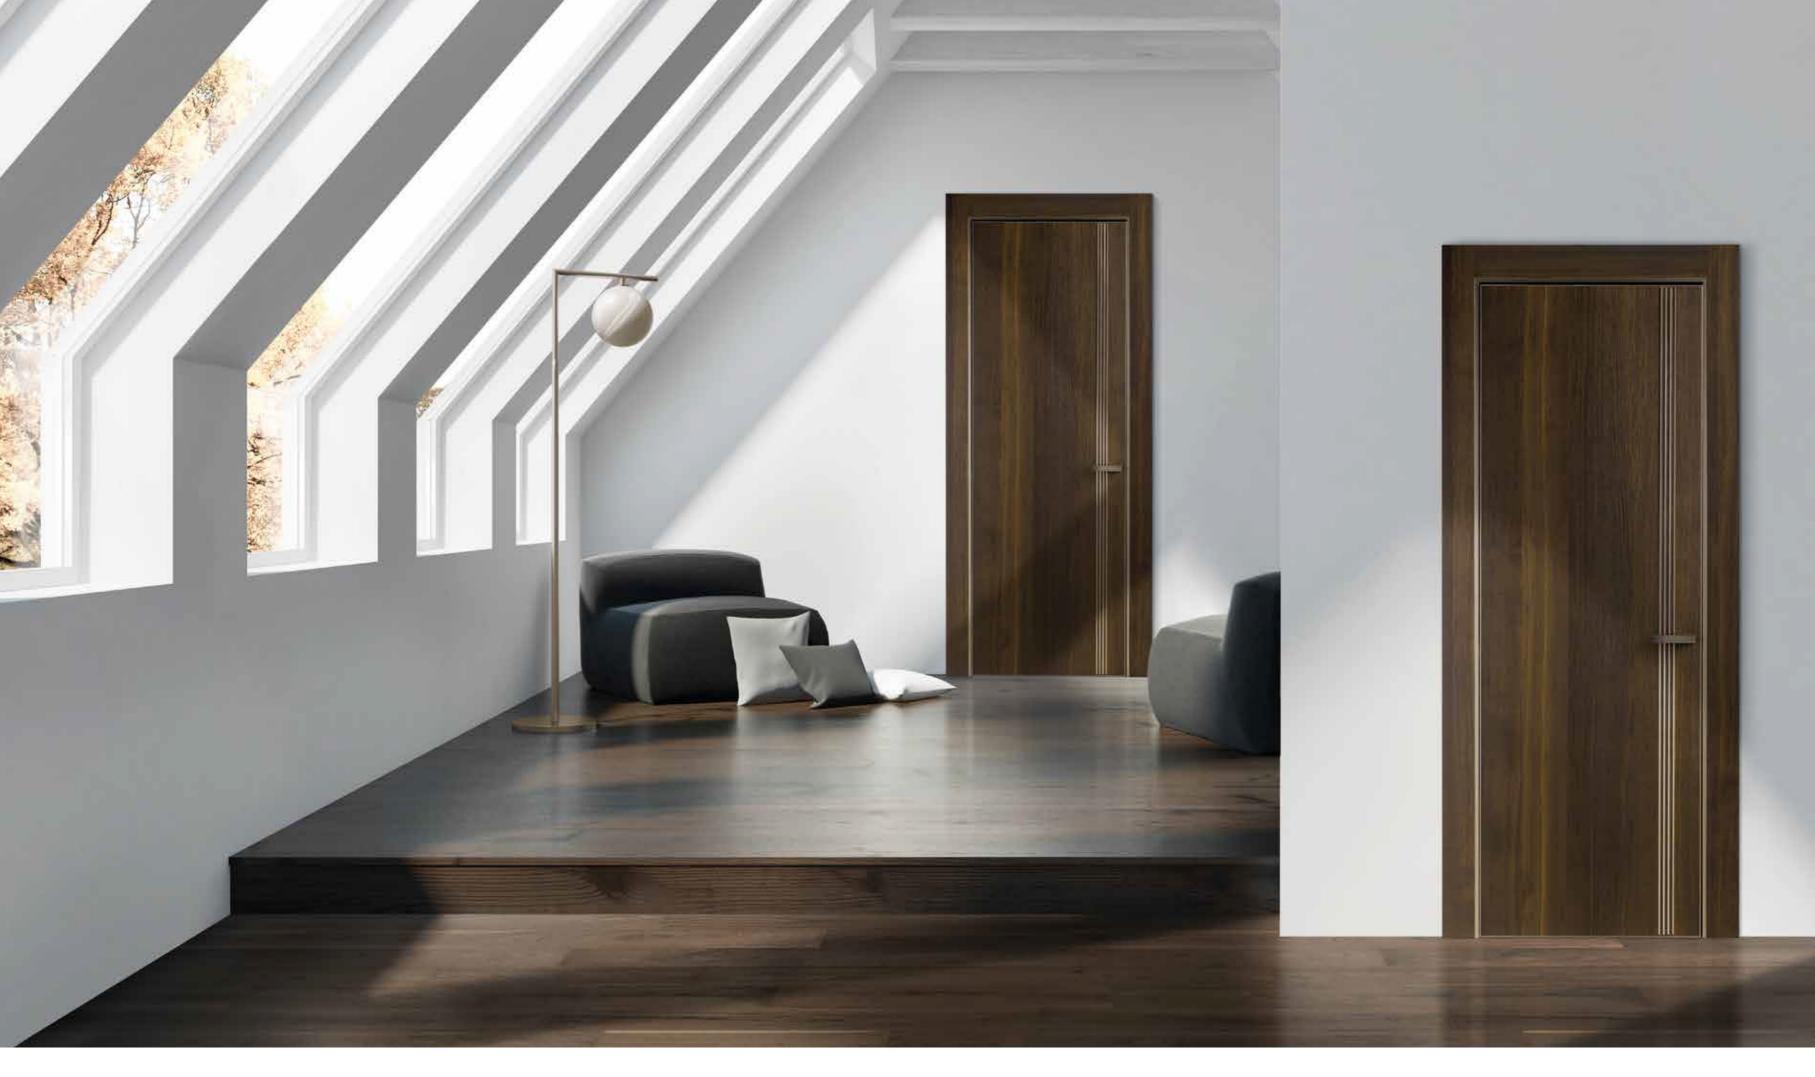

Matt Black (NO)

Matt White (BO)

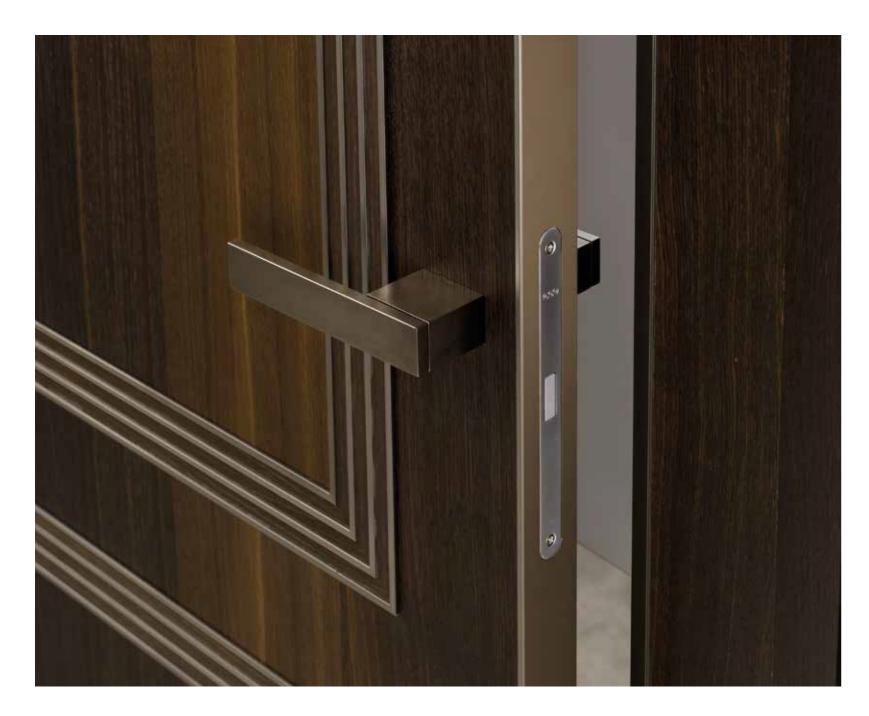

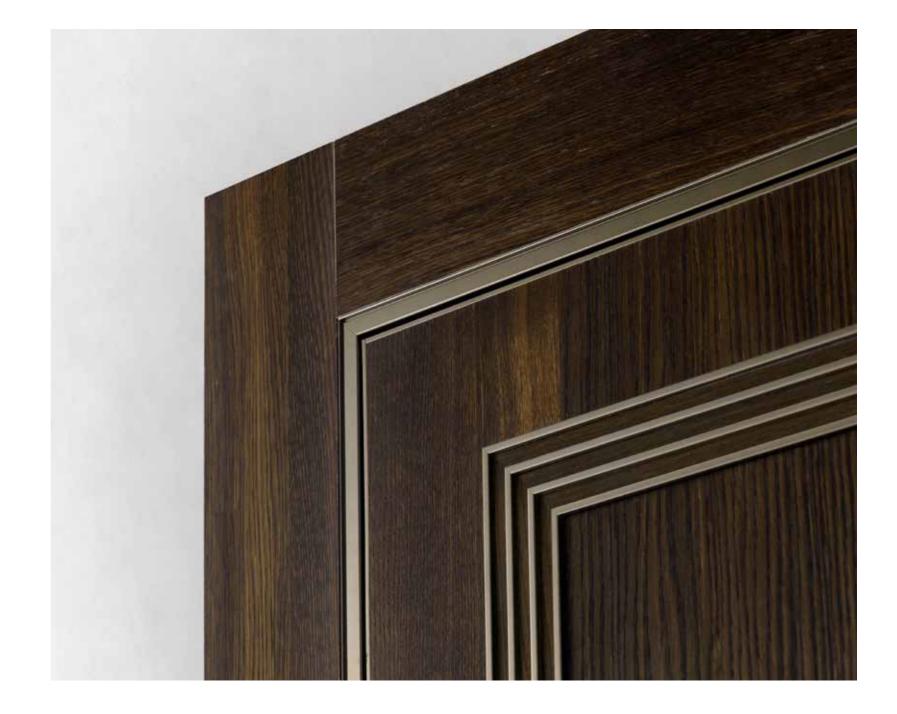

Carefully brushed and varnished veins to highlight every detail of the prestigious veneer: the wood doors of Nature collection are conceived to furnish and divide spaces with quality wood and the charm of its irregularities, in balance between classic and contemporary.

The innovative Nature Eco lacquered finish highlights the marked wood grain, accentuated to obtain a natural look. To embellish the door, the geometric profiles of the inserts convey a sense of prestige.

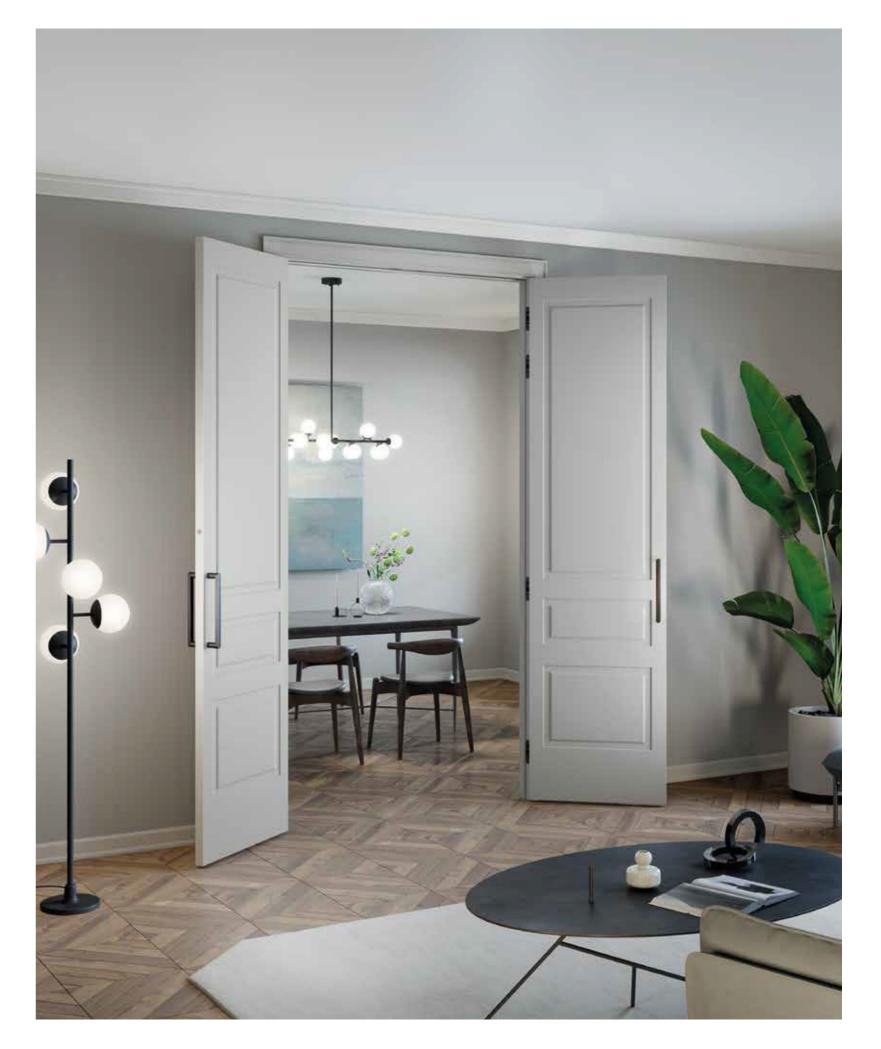

Classico collection

This is a modern interpretation of classic taste. Influenced by soft, particularly complex shapes, these doors have a clear connection to the other Barausse lines: a decisive, refined look that never fails to enhance the rooms where they are installed. A new aspect of this collection is the introduction of METAL finishes for a sophisticated trend-setting style.

GIOTTO 02 GIOTTO G

The Giotto collection is renewed with the addition of a milled line. The graceful lines of this collection suggest new scenarios and a perfect balance between classic and modern style.

 OPEN 01PP
 OPEN 08PU - TN
 OPEN 08PU - ERA STILE

OPEN has evolved from the traditional panel door. Its versatile, distinct line can elegantly interpret spaces with a hint of modern or classic style depending on the project requirements, thanks to a wide range of finishes and combinations with simple or moulded frames.
