RESIDENTIAL  
GARAGE DOORS

FRAMELESS  
LOOK

SLEEK & LUXURY  
DESIGN

# OPTIONS

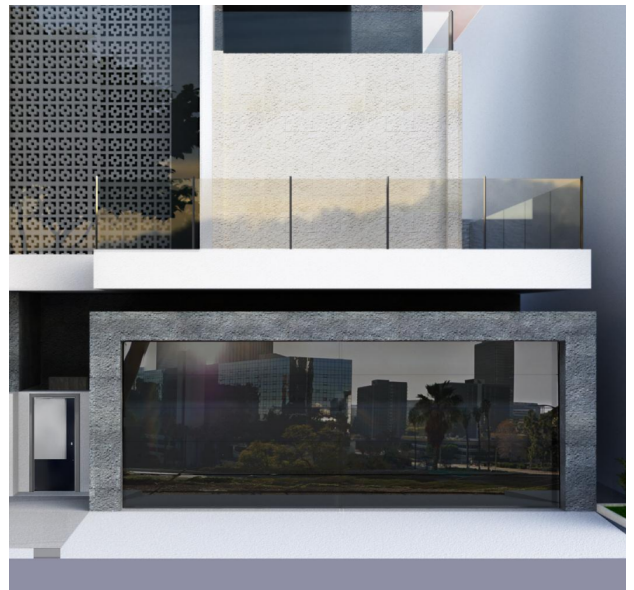

## Mirrored Bronze

One way mirror with the tempered glass technology ensures the outstanding look and durability of your frameless glass garage doors.

## Ebony Black

Black sleek design with the most innovative double tempered laminated glass solution will be the perfect choice.

## Opaque Gray

Unique and exquisite color with advanced protection.

# Contemporary Design

## MODERNO

Paying attention to the smallest details this unique range is able to satisfy different architectural and aesthetic solutions and will tastefully complement any home design.

These high-end garage doors are one in a kind offering fully customizable sizes and different finishes.

When it comes to your safety and security, double tempered and laminated glass garage doors are the best solution.

Powder coated hidden aluminum frame ensures the perfect match, making your house even more aesthetically pleasing and appealing.

**Safety & Security  
First**

# Powerful Glass

Thorough hard work in research and development we have created a door to enhance its safety properties. The **double tempered glass** is approximately 4-5 times stronger, however, even when broken, it breaks into relatively small fragments, less likely to cause any injury and meets all building code requirements.

## THE STRONG CHOICE

**The laminated glass** significantly improves door's ability to withstand or resist breakage from exterior forces, including high winds, flying debris and intruders. Apart from that it will also help quiet buildings, reducing noise from traffic

**"Elegance, safety & protection.  
When the design meets  
technology".**

# Advanced Solutions

Whether you are working on a custom project or need special sizes, we will be glad to bring you tailor made solutions for your glass garage doors. Perfectly matching hidden aluminum frame will ultimately complete the frameless look.

## SINGLE OR DOUBLE ?

All garage doors come with single or double track hardware ensuring the smooth functioning of the doors. To help you choose the right hardware for your garage door, you just need the right measurements.

## Open & Close With Your Phone

Garage doors are compatible with wall mounted Lift Master *garage door openers* that provide the ultimate garage access solution, designed to optimize space with **built-in Wi-Fi** allowing to control it straight from your phone.

## Tailored To Your Door Sizes

### CHOOSE THE PERFECT SIZE

With the sophisticated design and excellent structural flexibility **moderno** garage doors are available in the broadest variety of options offering standard and fully customizable sizes.

The custom choice makes your garage door unique and outstanding matching your design and aesthetics.

### Standard & Custom

		■ 8 X 7
		■ 8 X 8
		■ 16 X 7
		■ 16 X 8

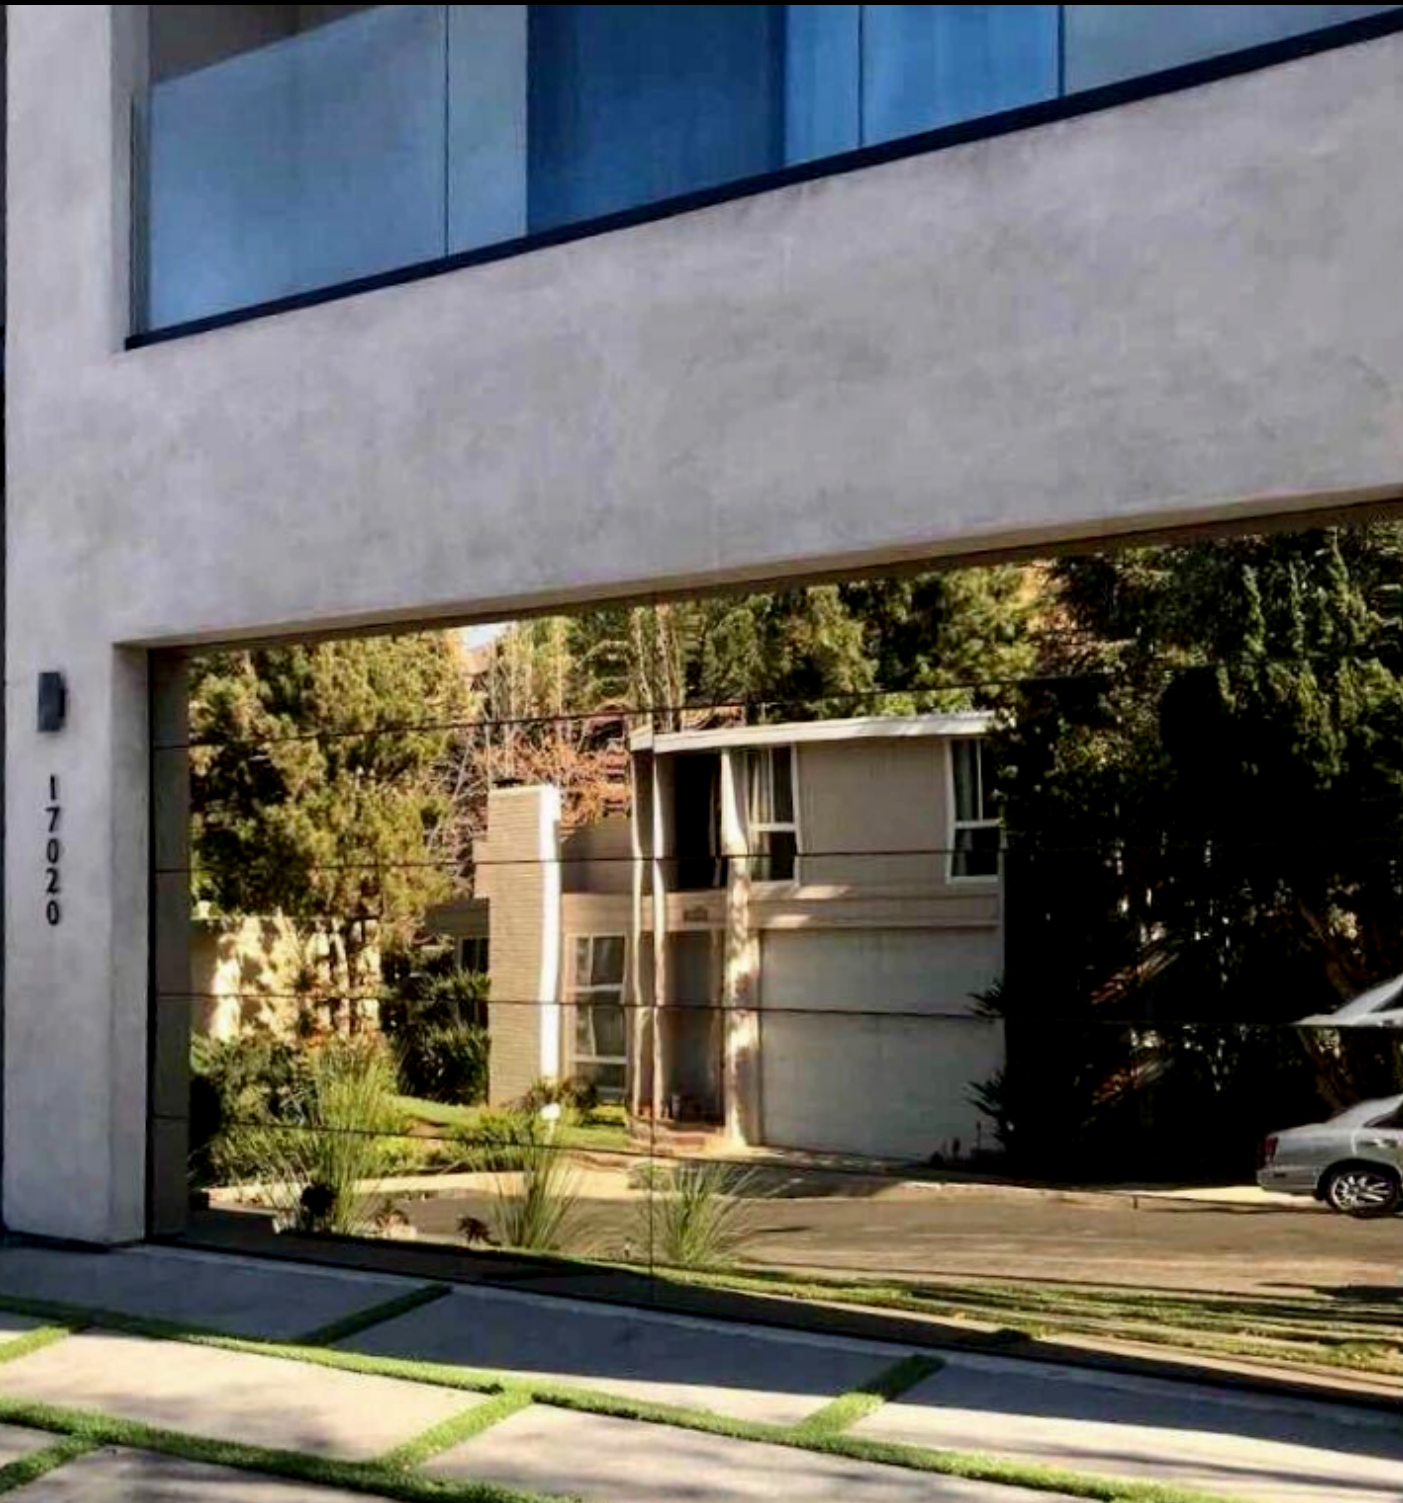

Carefully chosen high-quality materials, top-quality processing and a wide variety of additional fittings give each garage door an individual look keeping with the architecture of the house and contemporary style.
