# PURE

This evocatively named collection grew out of an exquisitely natural vision. Its pared-down styling indulges in little extra ornamentation, opting instead for understatement: in the sinks, it highlights the simple function of receiving and holding water, and in the fixtures, it takes on the natural curves of a river-polished pebble. Consider able water savings and easier and more efficient cleaning: these are the truly innovative results of the NORIM system. Water enters with great dynamism and is distributed more evenly over the entire surface. With this rim-less system, the toilet is cleaned with greater strength and without splashing, ensuring more effective results over time and a more beautiful and functional bathroom fixture for longer.
