

ALUMINIUM WINDOW COLOURS

RAL 7016 MATT AND 9016 MATT AS STANDARD

In the interest of producing the highest quality doors, based on one of the world's most modern powder coating plants, Drutex offers a wide range of paint coatings colours. Among them, depending on the expected aesthetics, metallic paints with structure, matt paints, or even paints ensuring special effects.

The colour scheme also applies to the aluminium parts of the DUOLINE product line.

WOODEN WINDOW COLOURS

The rich range of opaque paints, provides 100% protection for the wooden structure. Transparent paints (azure) emphasise the structural characteristics of the given wood type and display the appropriate tint at the same time. The wooden exterior doors are a perfect solution for clients who value not only classic designs but also modern trends.

The colour scheme also applies to the wooden parts of the DUOLINE product line.

Non standard colours according to RAL.

IMPORTANT - as an option for the DOULINE system, we offer a clearcoat for the wooden part of the window (from inside).

*Print may vary from the actual colour.

GLASS PANES

We offer many types of glass panes that are characterised by the highest quality of workmanship. Choose panes for your windows that will meet your expectations and give your interior unique character.

We have been manufacturing multiple glazed panes since 1994. We have a state-of-the-art glass tempering plant and our own research laboratories, which ensure the highest quality.

The glazed units we manufacture can be fitted with special capillaries to equalise the pressure inside the glass with atmospheric pressure. Thanks to this solution, the glazing packages will perform perfectly in your premises.

Option to sandblast the glass in any way you wish (in 3 shades of grey)* or to use ready-made designs.

INFILLING MATERIAL

- **ARGON** - all glazed units are infilled with argon gas as standard, which guarantees very good thermal insulation. This has resulted in glazed units with Ug value of between 1.1 and 0.5 W/(m²K).

3-pane (2-chamber) 48 mm units with glass-pane spacer made of galvanised steel.

GLASS TYPES

Matt

Striped sandblasted glass*

Reflect-float brown 6 mm

Reflect-float blue 6 mm

Float 4, 6, 8, 10 m
