

YUNA

CONTEMPORARY

YUNA

E S S E N T I A L D E S I G N

New shapes, designs and structures, but above all, the insertion of fresh and original wooden essences which have characterized the numerical and qualitative expansion of the YUNA Collection. Clean, light and essential lines.

Glasses skilfully integrated into wood.

Available in the inishes rovere grigio, rovere moka, rovere bruno, noce soft, noce heavy, bianco, grigio, avorio and in all the inishes RAL lacquered. The coplanar system on the hinges side allows its placing in modern, contemporary and design habitats. YUNA is basic expression of design drawn to minimalistic signs which exalt the background to recover a strict style in the greatness mark.

Every product is singularly treated, aiming to give a peculiar look to wood and inishing.
This product is realized by using special inishes and materials coming from handcraft treatments; for this right reason it’s unmatchedable and original,
and any sort of “deformity” in itself at the time of purchase or later is not to be considered as such, but a conirmation of its uniqueness.
