

Canyon | 50 Side Table

The Canyon Side Table is a keepsake of the enigmatic forces of Nature. Canyons are formed either by the movement of water or wind, or by the stillness of weathering. This side table is carved from a stone block, and the boundaries are either angular or curved. The porous texture of the Travertine breathes on the surface of the top and sides. And in its core, the gold leaf is hand gilded in the stone. The Canyon encloses a purposeful materiality of nature's wonders.
